1. Details of the Offers

1.1 Background

On 6 February 2019, the Company announced that it had entered into a binding agreement and plan of merger (**Merger Agreement**) to acquire the entire issued share capital of Lifi Labs, Inc. trading as LIFX (**LIFX**) (**Acquisition**) and that it had received firm commitments in respect to a placement of 226,250,000 Shares to professional and sophisticated investors at an issue price of \$0.08 to raise a total of A\$18.1 million (before costs) (**Placement**).

Under the Merger Agreement, the Acquisition is conditional on, amongst other things, the Company obtaining the requisite Shareholder approvals. A notice of meeting was dispatched to Shareholders on 22 February 2019 (**Notice**) to seek the requisite approvals in respect to the Acquisition.

On 18 March 2019, the Company announced that it had entered into a term sheet pursuant to which, subject to entering into formal documentation, Luminous Wide Limited, LIFX's 51% shareholder (**Majority Vendor**) has agreed to defer payment of a portion of the cash consideration under the Merger Agreement and Eastfield has agreed to enter into a new line of credit. An addendum to the Notice was dispatched to Shareholders on 19 March 2019 (**Addendum**).

On 25 March 2019, at the general meeting of Shareholders, Shareholders approved (amongst other matters):

- (a) the issue of up to 454,545,455 Shares (**Total Minority Vendor Shares**) to the minority vendors of LIFX (**Minority Vendors**);
- (b) the issue of 92,764,379 Shares (**Eastfield Shares**) to Eastfield Lighting (Hong Kong) Co. Limited, a related body corporate of the Majority Vendor (**Eastfield**);
- (c) the issue of 226,250,000 Shares (**Placement Shares**) to sophisticated and professional investors identified by Bell Potter Securities Limited, the Company's lead manager in respect to the Placement; and
- (d) the issue of 4,444,444 Shares (**Executive Shares**), 24,000,000 Performance Rights (**Executive Performance Rights**) and 24,000,000 Performance Shares to the Key Executives.

Refer to the Company's announcement of 6 February 2019 and 18 March 2019 and the Notice and Addendum for further details in respect to the Acquisition.

The Company subsequently entered into a binding agreement with the Majority Vendor pursuant to which the Majority Vendor has agreed to defer a portion of the cash consideration (US\$12.5 million) due under the Merger Agreement and Eastfield has agreed to amend the loan agreement between Eastfield, the Company and LIFX (**Loan Agreement**). As part of the new Loan Agreement, the Company has agreed to issue to the Majority Vendor (and/or its nominee) 100,000,000 New Options in the Company (**Finance Options**). Refer to the ASX Announcements dated 18 March 2019 and 1 April 2019 for further details.

The Placement Shares were issued on 29 March 2019 and the Acquisition was completed on the evening of 29 March 2019 (Seattle time). On 1 April 2019, shortly following the lodgement of this Prospectus, the Company will issue:

- (a) 337,794,623 Shares to the Minority Vendors (**Minority Vendor Shares**), being part of the Total Minority Vendor Shares;
- (b) the Eastfield Shares;
- (c) the Executive Shares; and

- (d) the Executive Performance Rights.

The remainder of the Total Minority Vendor Shares under the Merger Agreement (being up to 116,750,832 Shares) will be issued upon receipt of certain documentation in connection with the Merger Agreement.

1.2 The Cleansing Offer

The Company is offering, pursuant to this Prospectus, 1,000 New Shares each at an issue price of A\$0.08 (**Cleansing Offer**).

All of the New Shares offered under this Prospectus will rank equally with Shares on issue at the date of this Prospectus. Refer to Section 4.1 for a summary of the rights attaching to the Shares

1.3 Purpose of the Cleansing Offer

Generally, section 707(3) of the Corporations Act requires that a prospectus is issued in order for a person to whom securities were issued without disclosure under Part 6D of the Corporations Act to on-sell those securities within 12 months of the date of their issue.

Section 708A(5) of the Corporations Act provides an exception to section 707(3) where an entity issues a 'cleansing' notice under section 708A(5). The Company has been suspended from trading on the ASX for more than 5 days in the last 12 months and as a result is precluded from issuing a 'cleansing' notice in accordance with section 708A(5) of the Corporations Act.

Section 708A(11) of the Corporations Act provides an exemption from this general requirement where:

- (a) the relevant securities are in a class of securities of the company that are already quoted on ASX;
- (b) a prospectus is lodged with ASIC either:
 - (i) on or after the day on which the relevant securities were issued but before the day on which the sale offer is made; or
 - (ii) before the day on which the relevant securities are issued and offers of securities that have been made under the prospectus are still open for acceptance on the day on which the relevant securities were issued; and
- (c) the prospectus is for an offer of securities issued by the company that are in the same class of securities as the relevant securities.

The primary purpose of this Prospectus is to comply with section 708A(11) of the Corporations Act to remove any trading restrictions that may have attached to the Minority Vendor Shares, Eastfield Shares, Executive Shares and Placement Shares to be issued by the Company so that the holders of the Minority Vendor Shares, Eastfield Shares, Executive Shares and Placement Shares (as applicable), if they choose to, may sell those Minority Vendor Shares, Eastfield Shares, Executive Shares and Placement Shares (as applicable) within the twelve months following their issue, without the issue of a prospectus. The Company did not issue the Minority Vendor Shares, Eastfield Shares, Executive Shares and Placement Shares with the purpose of the persons to whom they were issued selling or transferring the Minority Vendor Shares, Eastfield Shares, Executive Shares and Placement Shares, or granting, issuing or transferring interests in the Minority Vendor Shares, Eastfield Shares, Executive Shares and Placement Shares within 12 months of the issue, however this Prospectus provides them with the ability to do so should they wish.

Accordingly, the purpose of this Prospectus is to:

- (a) make the Offers; and

- (c) ensure that the on-sale of the Minority Vendor Shares, Eastfield Shares, Executive Shares and Placement Shares does not breach section 707(3) of the Corporations Act by relying on the exemption to the secondary trading provisions in section 708A(11) of the Corporations Act.

The Cleansing Offer will have a minimal effect on the Company's financial position, being receipt of funds of A\$80 less costs of preparing the Prospectus.

2.3 Market price of Shares

Highest:	A\$0.105
Lowest:	A\$0.059
Latest	A\$0.073

2.4 Dividend policy

The Directors are not able to say when and if dividends will be paid in the future, as the payment of any dividends will depend on the future profitability, financial position and cash requirements of the Company.

3. Risk Factors

The New Securities are considered highly speculative. An investment in the Company is not risk free. The proposed future activities of the Company are subject to a number of risks and other factors that may affect its future performance. Some of these risks can be mitigated by the use of safeguards and appropriate controls. However, many of the risks are outside the control of the Directors and management of the Company and cannot be mitigated.

The risks described in this Section 3 are not an exhaustive list of the risks faced by the Company or by investors in the Company. It should be considered in conjunction with other information in this Prospectus. The risks described in, and others not specifically referred to, in this Section 3 may in the future materially affect the financial performance and position of the Company and the value of the New Securities offered under this Prospectus. The New Securities to be issued pursuant to this Prospectus carry no guarantee with respect to the payment of dividends, return of capital or the market value of those securities. The risks described in this Section 3 also necessarily include forward looking statements. Actual events may be materially different to those described and may therefore affect the Company in a different way.

Investors should be aware that the performance of the Company may be affected and the value of its Shares may rise or fall over any given period. The Directors strongly recommend that potential investors consider the risks detailed in this Section 3, together with information contained elsewhere in this Prospectus, and consult their professional advisers, before they decide whether to apply for the New Securities.

3.1 Risks Specific to the Company

(a) **Integration Risk of LIFX Acquisition**

The operating results of the Company will depend on the success of management in integrating the acquisition of LIFX. There is no guarantee that the Company will be able to integrate the business of LIFX into the Company successfully, or that any economic benefits will be able to be realised. There is a risk that the Company's future profitability and prospects could be adversely impacted if successful integration is not achieved in an orderly and timely fashion.

(b) **Future Capital Needs and Additional Funding**

The future capital requirements of the Company will depend on many factors including its business development activities and the success of the integration of the business of LIFX. Although the Company's available cash should be adequate to fund its business development activities, business plan and other Company objectives in the near term, changes to operational requirements, market conditions and business opportunities may mean further funding is required by the Company at an earlier stage than is currently anticipated.

Should the Company require additional funding there can be no assurance that additional financing will be available on acceptable terms, or at all. Any inability to obtain additional funding, if required, would have a material adverse effect on the Company's business and its financial condition and performance and the Company's ability to continue as a going concern.

(c) **Reliance on Core Information Technology and Other Systems**

The operation of the Company's platforms is dependent upon the performance, reliability and availability of its information technology and communication systems. This includes its core technologies such as computer servers and back-end processing systems. These systems may be adversely affected by a number of factors including major events such as acts of terrorism or war or a breakdown in utilities such as electricity and fibre optic cabling. Events of that nature may cause one or more of those core technologies to become unavailable. There are also internal and external factors that may adversely affect those systems and technologies such as natural disasters, misuse by employees or

contractors or other technical issues. The disaster recovery plans of the Company and its acquired businesses may not adequately address every potential event, and its insurance policies may not cover loss or damage that the Company and its acquired businesses (as applicable) suffer as a result of a system failure.

Any damage to, or failure of, the Company's or its acquired businesses' key systems can result in disruptions in the Company's or its acquired businesses' ability (as applicable) to operate its various data aggregation and management platforms for the IoT and connected devices. Such disruptions have the potential to reduce the ability of the Company and its acquired businesses to generate revenue, impact consumer service levels and damage the respective brand values of the Company and its acquired businesses. This could adversely affect the Company's ability to generate new business and cause it to suffer financial loss.

The industry in which the Company and its acquired businesses are involved is also subject to rapid and significant changes in technology. The impact of these changes on the Company and its acquired businesses cannot be predicted. The costs associated with implementing emerging and future technology changes could be significant.

(d) **Intellectual Property**

The Company intends to pursue intellectual property protection in the form of patents for newly developed technologies. However, if the Company fails to protect the intellectual property rights adequately, competitors may gain access to its technology which may harm the Company's business.

Legal standards relating to the validity, enforceability and scope of protection of intellectual property rights are uncertain. Effective patent, trade mark, copyright and trade secret protection may not be available to the Company in every country in which the Platform may eventually be launched. Accordingly, despite its efforts, the Company may not be able to prevent third parties from infringing upon or misappropriating its intellectual property.

Market conditions depending, the Company may be required to incur significant expenses in monitoring and protecting its intellectual property rights. It may initiate or otherwise be involved in litigation against third parties for infringement, or to establish the validity, of its rights. Any litigation, whether or not it is successful, could result in significant expense to the Company and cause a distraction to management.

In addition, unauthorised use of the "Buddy" brand in counterfeit products or services may not only result in potential revenue loss, but also have an adverse impact on its brand value and perceptions of its product qualities.

(e) **Reliance on Key Personnel**

The Company operates in a rapidly growing and competitive sector. It relies heavily on the core competencies and expertise of its key employees in technical, engineering and sales and marketing. The responsibility of overseeing the day-to-day operations and the strategic management of the Company depends substantially on its senior management and directors. There can be no assurance that there will be no detrimental impact on the performance of the Company or its growth potential if one or more of these employees cease their employment and suitable replacements are not identified and engaged in a timely manner. Further, the Company growth and financial performance may suffer if it is unable to secure the quality and quantity of new employees or contractors it requires to facilitate its growth due to industry competition for these skills.

(f) **Industry Competition**

The Company's future performance may be affected by the level of competition in the IoT Industry in which it operates. Whilst the Company is an early mover in the industry, new or existing competitors may be successful in offering alternative and may enter into

strategic partnerships with recognised press associations which enhance their business at the expense of the Company.

(g) **Reputational Risks**

The Company operates in an online and fast-changing environment. Negative publicity can spread quickly, whether true or false. Disgruntled users posting negative comments about the businesses in public forums may have a disproportionate effect on the reputation of the Company and/or its acquired businesses (as applicable) and their ability to earn revenues and profits. Additionally, complaints by such users can lead to additional regulatory scrutiny and a consequential increased compliance burden in responding to regulatory enquiries. This could negatively impact upon the Company's and its acquired business' profitability (as applicable).

(h) **Reliance on Third Party IT Service Provision**

The Company utilise services provided by third parties to maintain and deliver its software as data aggregation and management platforms and other key deliverables in its business model. This includes payment gateway providers, sales staff and integration of the platforms to the market dispensing software packages. Significant or extended disruption of the Company or its acquired businesses caused by supplied equipment, software or service failure may reduce their ability to generate revenue, impact client and consumer service levels and may damage their brand. This could adversely affect the Company's and its acquired businesses' ability to generate new business and cause it to suffer financial loss. Any mitigation of this loss via redress from third party suppliers may not be immediately available, if at all.

The company is continually assessing the risk and opportunities associated with its business model and other than disruptions for short periods of time due to service delivery failure is not solely reliant on any one party for delivery.

(i) **Hacker attacks**

The Company will rely upon the availability of its platform to provide services to customers and attract new customers. Hackers could render its platform unavailable or cause customers' personal information being compromised.

Although Buddy has strategies in place to minimise such attacks, these strategies may not be successful. Unavailability of the platform could lead to a loss of revenue for the Company and/or its acquired businesses while compromising customers' information could hinder the Company's and its acquired businesses' abilities to retain existing customers or attract new customers, which would have a material adverse impact on their growth.

There is also currently an increased exposure to organisations that process personal information in the course of their commercial activities, in particular, relating to liability arising from security incidents. Although the Company is relatively small, vulnerabilities in the information security governance will require remediation in the near future and upon completion of the Acquisition.

(j) **Security Breaches**

The Company collects, stores, processes and analyses the data generated by the IoT and connected devices, and unlock the economic opportunities delivered by this data. Such data can be highly sensitive, highly regulated and confidential information. The provision of secure and reliable information storage and processing services is integral to the businesses and operations of the Company in a wide variety of industries.

Whilst the Company follows best practice in relation to security policies, procedures, automated and manual protections, encryption systems and staff screening to minimise risks, there is no guarantee that the implementation of such precautions will be sufficient to prevent data security breaches and information being compromised or misused.

(k) **Failure to Deal with Growth**

The Directors will continue to seek to grow the Company both organically and through new investment opportunities. There are always risks that the benefits, synergies or efficiencies expected from such investments or growth may take longer than expected to be achieved or may not be achieved at all. Any investments pursued could have a material adverse effect on the Company.

There is a risk that management of the Company will not be able to implement the Company's growth strategy after completion of the Acquisition. The capacity of the expanded management team to properly implement and manage the strategic direction of the Company may affect the Company's financial performance.

The LIFX and Company businesses have the potential to grow rapidly. If that occurs and the Company fails to properly manage that growth, then that failure could harm its business or LIFX's business. Any failure to meet user and contributor demand properly could adversely affect the business, including demand for its and LIFX's products, services, revenue collection, user and contributor satisfaction and public perception.

(l) **Contract Risks**

The Company's subsidiaries operate through a series of contractual relationships with operators, sub-contractors and manufacturers. All contracts carry risks associated with the performance by the parties thereto of their obligations as to time and quality of work performed. Any disruption to services or supply may have an adverse effect on the financial performance of the Company's operations.

(m) **Potential Acquisitions**

As part of its business strategy, the Company may make acquisitions of, or significant investments in, companies, products, technologies and/or products that are complementary to the Company's business. Any such future transactions are accompanied by the risks commonly encountered in making acquisitions of companies, products and technologies, such as integrating cultures and systems of operation, relocation of operations, short term strain on working capital requirements, achieving the sales and margins anticipated and retaining key staff and customer and supplier relationships.

(n) **Currency Risk**

The Company expects to derive a majority of its revenue from the United States, in US dollars. Accordingly, changes in the exchange rate between the United States dollar and the Australian dollar would be expected to have a direct effect on the performance of the Company.

3.2 General Risks

(a) **Reliance on Key Management**

The responsibility of overseeing the day-to-day operations and the strategic management of the Company depends substantially on its senior management and Directors. There can be no assurance that there will be no detrimental impact on the performance of the Company or its growth potential if one or more of these employees cease their employment and suitable replacements are not identified and engaged in a timely manner.

(b) **Trading Price of Shares**

The Company's operating results, economic and financial prospects and other factors will affect the trading price of the Shares. In addition, the price of Shares is subject to varied

and often unpredictable influences on the market for equities, including, but not limited to, general economic conditions including the performance of the Australian dollar on world markets, inflation rates, foreign exchange rates and interest rates, variations in the general market for listed stocks in general, changes to government policy, legislation or regulation, industrial disputes, general operational and business risks, and hedging or arbitrage trading activity that may develop involving the Shares.

In particular, the share prices for many companies have been and may in the future be highly volatile, which in many cases may reflect a diverse range of non-company specific influences such as global hostilities and tensions relating to certain unstable regions of the world, acts of terrorism and the general state of the global economy. No assurances can be made that the Company's market performance will not be adversely affected by any such market fluctuations or factors.

(c) **Additional Requirements for Capital**

The capital requirements of the Company depend on numerous factors. Depending on the ability of the Company to generate income from its operations, the Company may require further financing in the future. Any additional equity financing will dilute shareholdings, and debt financing, if available, may involve restrictions on financing and operating activities. If the Company is unable to obtain additional financing as needed, it may be required to reduce the scope of its operations.

(d) **Litigation Risks**

The Company is exposed to possible litigation risks including intellectual property claims, contractual disputes, occupational health and safety claims and employee claims. Further, the Company may be involved in disputes with other parties in the future which may result in litigation. Any such claim or dispute if proven, may impact adversely on the Company's operations, financial performance and financial position. The Company is not currently engaged in any litigation.

(e) **Economic Risks**

General economic conditions, movements in interest and inflation rates and currency exchange rates may have an adverse effect on the Company's activities, as well as on its ability to fund those activities.

Further, share market conditions may affect the value of the Company's securities regardless of the Company's operating performance. Share market conditions are affected by many factors such as:

- (i) general economic outlook;
- (ii) interest rates and inflation rates;
- (iii) currency fluctuations;
- (iv) changes in investor sentiment toward particular market sectors;
- (v) the demand for, and supply of, capital; and
- (vi) terrorism or other hostilities.

(f) **Technology Sector Risks**

The technology sector is characterised by rapid change. New and disruptive technologies can place competitive pressures on existing companies and business models, and technology stocks may experience greater price volatility than securities in some slower changing market sectors.

The value of the Company's securities may be adversely affected by any general decline in the valuation of listed securities and/or adverse market sentiment towards the technology sector in particular, regardless of the Company's operating performance.

(g) **Force Majeure**

The Company, now or in the future, may be adversely affected by risks outside the control of the Company including labour unrest, civil disorder, war, subversive activities or sabotage, extreme weather conditions, fires, floods, explosions or other catastrophes, epidemics or quarantine restrictions.

(h) **Acquisitions**

As part of its business strategy, the Company may make acquisitions of, or significant investments in, companies, products, technologies and/or products that are complementary to the Company's business. Any such future transactions are accompanied by the risks commonly encountered in making acquisitions of companies, products and technologies, such as integrating cultures and systems of operation, relocation of operations, short term strain on working capital requirements, achieving the sales and margins anticipated and retaining key staff and customer and supplier relationships.

3.3 **Investment Speculative**

The above list of risk factors ought not to be taken as exhaustive of the risks faced by the Company or by investors in the Company. The above factors, and others not specifically referred to above may, in the future, materially affect the financial performance of the Company and the value of its New Securities.

The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of the Company and the value of the New Securities offered under this Prospectus. Therefore, the New Securities to be issued pursuant to this Prospectus carry no guarantee with respect to the payment of dividends, returns of capital or the market value of those New Securities. Potential investors should consider that the investment in the Company is speculative and should consult their professional adviser before deciding whether to apply for New Securities pursuant to this Prospectus.

4. Additional information

A summary of the rights attaching to New Shares is detailed below. This summary is qualified by the full terms of the Constitution (a full copy of the Constitution is available from the Company on request free of charge) and does not purport to be exhaustive or to constitute a definitive statement of the rights and liabilities of Shareholders. These rights and liabilities can involve complex questions of law arising from an interaction of the Constitution with statutory and common law requirements. For a Shareholder to obtain a definitive assessment of the rights and liabilities that attach to New Shares in any specific circumstances, the Shareholder should seek legal advice.

(c) **Dividend Rights**

Subject to the rights of any preference Shareholders and to the rights of the holders of any shares created or raised under any special arrangement as to dividend, the Directors may from time to time declare a dividend to be paid to the Shareholders entitled to the dividend which shall be payable on all Shares according to the proportion that the amount paid (not credited) is of the total amounts paid and payable (excluding amounts credited) in respect of such Shares.

The Directors may from time to time pay to the Shareholders any interim dividends as they may determine. No dividend shall carry interest as against the Company. The Directors may set aside out of the profits of the Company any amounts that they may determine as reserves, to be applied at the discretion of the Directors, for any purpose for which the profits of the Company may be properly applied.

Subject to the Listing Rules and the Corporations Act, the Company may, by resolution of the Directors, implement a dividend reinvestment plan on such terms and conditions as the Directors think fit and which provides for any dividend which the Directors may declare from time to time payable on Shares which are participating Shares in the dividend reinvestment plan, less any amount which the Company shall either pursuant to

the Constitution or any law be entitled or obliged to retain, be applied by the Company to the payment of the subscription price of Shares.

(d) **Winding-up**

If the Company is wound up, the liquidator may, with the authority of a special resolution of the Company, divide among the shareholders in kind the whole or any part of the property of the Company, and may for that purpose set such value as he considers fair upon any property to be so divided, and may determine how the division is to be carried out as between the Shareholders or different classes of Shareholders.

The liquidator may, with the authority of a special resolution of the Company, vest the whole or any part of any such property in trustees upon such trusts for the benefit of the contributories as the liquidator thinks fit, but so that no Shareholder is compelled to accept any Shares or other securities in respect of which there is any liability.

(e) **Shareholder Liability**

As the Shares under this Prospectus are fully paid shares, they are not subject to any calls for money by the Directors and will therefore not become liable for forfeiture.

(f) **Transfer of Shares**

Generally, Shares are freely transferable, subject to formal requirements, the registration of the transfer not resulting in a contravention of or failure to observe the provisions of a law of Australia and the transfer not being in breach of the Corporations Act or the Listing Rules.

(g) **Variation of Rights**

Pursuant to section 246B of the Corporations Act, the Company may, with the sanction of a special resolution passed at a meeting of Shareholders vary or abrogate the rights attaching to Shares.

If at any time the share capital is divided into different classes of Shares, the rights attached to any class (unless otherwise provided by the terms of issue of the shares of that class), whether or not the Company is being wound up, may be varied or abrogated with the consent in writing of the holders of three-quarters of the issued shares of that class, or if authorised by a special resolution passed at a separate meeting of the holders of the shares of that class.

(h) **Alteration of Constitution**

The Constitution can only be amended by a special resolution passed by at least three quarters of Shareholders present and voting at the general meeting. In addition, at least 28 days written notice specifying the intention to propose the resolution as a special resolution must be given.

(each referred to as an **Expiry Date**).

To the extent that any Performance Shares have not converted into Shares by the applicable Expiry Date, such Performance Shares for each Holder will automatically lapse and consolidate into one Performance Share and will then convert into one Share.

(e) **Conversion of Performance Shares**

Any conversion of Performance Shares into Shares is on a one for one basis.

(f) **Takeover Provisions**

- (i) If the conversion of Performance Shares (or part thereof) under Section 4.2(b) or 4.2(c) would result in any person being in contravention of section 606(1) of the Corporations Act, then the conversion of each Performance Share that would cause the contravention shall be deferred until such time or times thereafter that the conversion would not result in a contravention of section 606(1). Following a deferment under this Section 4.2(f), the Company shall at all times be required to convert that number of Performance Shares that would not result in a contravention of section 606(1).
- (ii) Where Section 4.2(f) applies, if requested to do so by the affected Holder, the Company must seek to obtain the approval of its shareholders under section 611, item 7 of the Corporations Act for the conversion of the affected Performance Shares at the Company's next annual general meeting.
- (iii) A Holder must promptly notify the Company in writing if they consider that the conversion of Performance Shares (or part thereof) under Section 4.2(b) or 4.2(c) may result in the contravention of section 606(1), failing which the Company is entitled to assume that such conversion will not result in any person being in contravention of section 606(1) (unless it is on notice to the contrary through a substantial holder notice which has been lodged in relation to the Company).
- (iv) The Company may (but is not obliged to) by written notice request that a Holder confirm to the Company in writing within 7 days if they consider that the conversion of Performance Shares under Section 4.2(b) or 4.2(c) may result in the contravention of section 606(1). If the Holder does not confirm to the Company within 7 days that they consider such conversion may result in the contravention of section 606(1), then the Company is entitled to assume that such conversion will not result in any person being in contravention of section 606(1) (unless it is on notice to the contrary through a substantial holder notice which has been lodged in relation to the Company).

(g) **Quotation**

If the Company is listed on the ASX at the time, upon conversion of the Performance Shares into Shares in accordance with these terms, the Company must within 7 days after the conversion, apply for and use its best endeavours to obtain the official quotation on ASX of the Shares arising from the conversion.

(h) **Conversion procedure**

(i) **Ranking of Shares**

The Shares into which the Performance Shares will convert will rank pari passu in all respects with the Shares on issue at the date of conversion.

4.3 Terms and Conditions of the New Options

(a) **Entitlement**

Each New Option entitles the holder to subscribe for one Share upon the exercise of the New Option.

(b) **Exercise Price and Expiry Date**

The New Options have an exercise price of A\$0.0759 per New Option (**Exercise Price**) and an expiry date of 5:00 pm (Beijing time) on a date that is 5 years from the date of issue (**Expiry Date**).

A New Option not exercised before the Expiry Date will automatically lapse on the Expiry Date.

(c) **Exercise Period**

The New Options are exercisable at any time on or prior to the Expiry Date.

(d) **Quotation of the New Options**

The Company will not apply for quotation of the New Options on ASX.

(e) **Notice of Exercise**

The New Options may be exercised by notice in writing to the Company in the manner specified on the New Option certificate (**Notice of Exercise**) and pay the Exercise Price for each New Option being exercised in Australian currency by electronic funds transfer or other means of payment acceptable to the Company in accordance with the Warrant Deed.

Any Notice of Exercise of a New Option received by the Company will be deemed to be a notice of the exercise of that New Option as at the date of receipt.

(f) **Shares Issued on Exercise**

Shares issued on exercise of the New Options rank equally with the then issued Shares.

(g) **Timing of the Issue of Shares on Exercise and Quotation**

Within 5 business days of a Notice of Exercise being given in accordance with these terms and conditions and payment of the Exercise Price for each New Option being exercised, the Company will:

- (i) issue the Shares pursuant to the exercise of the New Options; and
- (ii) apply for official quotation on ASX of Shares issued pursuant to the exercise of the New Options.

(h) **Participation in New Issues**

There are no participation rights or entitlements inherent in the New Options and holders will not be entitled to participate in new issues of capital offered to shareholders during the currency of the New Options. However, the Company will ensure that for the purposes of determining entitlements to any such issue, the record date will be at least 10 business days after the issue is announced. This will give the holders of New Options the opportunity to exercise their New Options prior to the date for determining entitlements to participate in any such issue.

(i) **Adjustment for Bonus Issues of Shares**

If the Company makes a bonus issue of Shares or other securities to existing Shareholders (other than an issue in lieu or in satisfaction of dividends or by way of dividend reinvestment):

- (i) the number of Shares which must be issued on the exercise of a New Option will be increased by the number of Shares which the New Option holder would have received if the New Option holder had exercised the New Option before the record date for the bonus issue; and
- (ii) no change will be made to the Exercise Price.

(j) **Adjustment for Rights Issue**

If the Company makes an issue of Shares pro rata to existing Shareholders (other than an issue in lieu of in satisfaction of dividends or by way of dividend reinvestment) the Exercise Price of a New Option will be reduced according to the following formula:

$$\text{New exercise price} = O - \frac{E [P - (S + D)]}{N + 1}$$

- O = the old Exercise Price of the New Option.
- E = the number of underlying Shares into which one New Option is exercisable.
- P = average market price (as defined in the ASX Listing Rules) per Share weighted by reference to volume of the underlying Shares during the 5 trading days ending on the day before the ex rights date or ex entitlements date.
- S = the subscription price of a Share under the pro rata issue.
- D = the dividend due but not yet paid on the existing underlying Shares (except those to be issued under the pro rata issue).
- N = the number of Shares with rights or entitlements that must be held to receive a right to one new share.

(k) **Adjustment for Reorganisation**

- (i) Subject to clause 4.3(k)(ii), if prior to the Expiry Date and for so long as any New Options remain on issue, there occurs:
 - (A) a consolidation or sub-division of capital of the Company, the number of unexercised New Options must be consolidated or sub-divided (as the case may be) in the same ratio as the capital of the Company is consolidated or sub-divided, and the Exercise Price per New Option must be amended appropriately to reflect that ratio;
 - (B) a return of capital of the Company, the number of unexercised New Options will remain the same, and the Exercise Price per New Option must be reduced by the same amount as the amount returned in relation to each issued Share;
 - (C) a pro-rata cancellation of capital of the Company, the number of unexercised New Options must be reduced in the same ratio as the capital of the Company is cancelled, and the Exercise Price per New Option must be amended appropriately to reflect that ratio; and
 - (D) a reduction of capital of the Company by way of a cancellation of paid up capital that is lost or not represented by available assets where no

securities are cancelled, the number of unexercised New Options and the Exercise Price must remain unaltered,

in each case, with the intention that any such adjustment will have an economically neutral effect on the Company and the Optionholders, and will not result in any benefits being conferred on the Optionholders which are not conferred on holders of issued Shares (without preventing any rounding of the number of Shares received on exercise of New Options where the rounding is approved at a meeting of shareholders approving the relevant reorganisation of capital).

- (ii) If prior to the Expiry Time and for so long as any New Options remain on issue the capital of the Company is reorganised, the rights of the Optionholders will be changed to the extent necessary to comply with the Listing Rules applying to a reorganisation of capital at the time of the reorganisation.

(l) **Transferability**

The New Options are transferable.

4.4 **Company is a Disclosing Entity**

The Company is a 'disclosing entity' (as defined in section 111AC of the Corporations Act) for the purposes of section 713 of the Corporations Act, and, as such, is subject to regular reporting and disclosure obligations. Specifically, like all listed companies, the Company is required to continuously disclose any information it has to the market which a reasonable person would expect to have a material effect on the price or the value of the Company's securities. The New Shares are in the same class as Shares that have been quoted on the official list of the ASX during the three months prior to the issue of this Prospectus.

This Prospectus is a 'transaction specific prospectus' to which the special content rules under section 713 of the Corporations Act apply. That provision allows the issue of a more concise prospectus in relation to an offer of securities, or operation to acquire securities, in a class which has been continuously quoted by ASX in the three months prior to the date of the prospectus. In general terms 'transaction specific prospectuses' are only required to contain information in relation to the effect of the issue of New Shares on the Company and the rights attaching to the New Shares. It is not necessary to include general information in relation to all of the assets and liabilities, the financial position, profits and losses or prospects of the issuing company.

This Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX and does not include all of the information that would be included in a prospectus for an initial public offering of securities in an entity that is not already listed on a stock exchange. Investors should therefore have regard to the other publicly available information in relation to the Company before making a decision whether or not to invest.

Having taken such precautions and having made such enquires as are reasonable, the Company believes that it has complied with the general and specific requirements of ASX as applicable from time to time throughout the three months before the issue of this Prospectus which required the Company to notify ASX of information about specified events or matters as they arise for the purpose of ASX making that information available to the stock market conducted by ASX.

Information that is already in the public domain has not been reported in this Prospectus other than that which is considered necessary to make this Prospectus complete.

The Company, as a disclosing entity under the Corporations Act states that:

- (a) it is subject to regular reporting and disclosure obligations;
- (b) copies of documents lodged with the ASIC in relation to the Company (not being documents referred to in section 1274(2)(a) of the Corporations Act) may be obtained from, or inspected at, the offices of the ASIC; and

- (c) it will provide a copy of each of the following documents, free of charge, to any person on request between the date of issue of this Prospectus and the Closing Date:
- (i) the annual financial report of the Company for the financial year ended 30 June 2018 being the most recent annual financial report of the Company lodged with the ASIC before the issue of this Prospectus; and
 - (ii) any documents used to notify ASX of information relating to the Company in the period from lodgement of the annual financial report referred to in paragraph (i) above until the issue of this Prospectus in accordance with the Listing Rules as referred to in section 674(1) of the Corporations Act.

Copies of all documents lodged with ASIC in relation to the Company can be inspected at the registered office of the Company during normal office hours.
