8 October 2019 – Adelaide, South Australia

Buddy Technologies Limited ("Company") (ASX:BUD), a leader in IoT and cloud-based solutions for making spaces smarter, wishes to provide an update on the recently announced A\$20m trade finance facility and the US\$6m inventory finance facility ("Facilities") (refer to ASX announcements on 27 August 2019, 2 September 2019, 11 September 2019 and 24 September 2019).

A condition precedent to financial close of the trade finance facility is to complete the remaining novations of certain customer supply contracts from other LIFX entities to LIFX Australia. The most valuable of these novations is the customer supply contract with Best Buy US, which has now been completed. Only one further novation remains, and the Company will provide shareholders with further information by way of ASX announcements when this has been completed.

The Company is pleased to share that it has executed financing documents for its US\$6 million inventory finance facility from The Challenger Trade Finance Segregated Portfolio of the South Africa Alpha SPC ("Challenger"). The Company is awaiting countersignatures from Challenger, after which it will proceed to draw down on this facility and in doing so, will fully satisfy its obligations with respect to repaying the Seisun bridge loan facility. Seisun has agreed to extend the maturity date of its facility for a short period to accommodate the time needed to secure Challenger's countersignature.
